**APPENDIX L  
 FY2015 FEE COMPUTATION  
 FEE BASIS**

For FY 2015, the performance measure model has one class of performance measures in Appendix B of the Prime Contract that is directly associated with fee (fee bearing). This reflects the approved FY 2015 Performance Goals, Objectives, and Notable Outcomes for Science & Technology and Management and Operations. The FY 2015 fee structure is in consonance with the following guidelines:

1. The maximum fee is to be in consonance with fees paid for the operation of similar FFRDC laboratories and will have a single tier structure;
2. While there are no current integrated subcontractor(s), the fees for integrated subcontractor(s), when and if they are again added to the BSA management structure, are included in the total fee set forth in Section B.3.
3. The fee structure is to be based on individual outcomes and their associated weights as determined separately;
4. The Performance Goal of Science and Technology will act as a “gate,” in that a final Grade of C (1.8) or above is required; there will be no fee if either Performance Goal outcome is D (1.0) or below.

**Maximum Fee**

The maximum fee that BSA can earn under this contract, for the period of October 1, 2014 through January 4, 2015, is established at \$1,850,000. In order to obtain the maximum fee, the Science & Technology performance goal must be scored 4.1 or above and the Management and Operations goal must be scored 3.1 or above. The scoring process is described in Appendix B.

**Fee Matrix (Table 1)**

Appendix B of the Prime Contract describes the scoring system for BSA’s performance. The “Percent S&T Fee Earned” from Appendix B is multiplied by the “M&O Fee multiple” from Appendix B to arrive at the total earned fee percentage. That percentage is then multiplied by the total available fee to arrive at BSA’s earned fee. See Fee Matrix below.
