DEC - 8 2014

Ms. Suzanne Davidson
Brookhaven Science Associates, LLC
Brookhaven National Laboratory
Upton, New York 11973

Dear Ms. Davidson:

**SUBJECT: BROOKHAVEN SCIENCE ASSOCIATE (BSA) AGREEMENTS FOR
COMMERCIALIZATION OF TECHNOLOGY (ACT) IMPLEMENTATION
UNDER CONTRACT DE-SC0012704**

On December 3, 2014 Brookhaven Science Associates (BSA) requested the authority to implement contracts and continue existing contracts using the PILOT Agreements for Commercialization of Technology (ACT) program under their new prime contract DE-SC0012704.

The Department of Energy (DOE) Brookhaven Site Office (BHSO) reviewed and approved BSA's Implementation Plan and procedures for implementation of the PILOT Agreements for the ACT program under prime contract DE-AC02-98CH10886 on January 15, 2013.

BSA has affirmed that there will be no changes to the previously approved implementation plan, policies or procedures under contract DE-AC02-98CH10886 and will be carried forward under the new contract DE-SC0012704.

BHSO has determined that BSA's current plan, policies, and procedures are adequate for implementation under BSA's new contract and approval is hereby **granted** to BSA to proceed with the implementation of ACT in prime contract DE-SC0012704.

BSA is reminded that this approval of ACT is considered a tool to be used to aid Brookhaven National Laboratory in attaining its strategic goal of strengthening and diversifying their research portfolio. ACT should not be used as a mechanism to displace the existing non-DOE funded approaches such as WFO and CRADA's. Success of ACT will be measured through a holistic look at the overall non-DOE sponsored work activity annually.

If you have any questions, please contact Jennifer Hartmann at extension 3438

Sincerely,

A handwritten signature in cursive script, appearing to read "Evelyn Landini".
